

Policy for Shipping Fuel Bottles and Stoves

Crews that need to ship gas stoves and fuel bottles home after their trek need to be sure that the stoves and bottles are **completely empty of gas**. The fuel bottles must be washed in hot soapy water, rinsed and drained. Both stoves and bottles must be aired out for at least 12 hours.

The stoves and bottles are then to be brought to the Post Office for inspection and shipping via RAC Transport. Shipping costs are \$7.50 (per stove and two (2) or three (3) fuel bottles.) Pre-Payment is required.

Each crew is responsible for RAC Transport charges.

REMEMBER, ALL CONTAINERS ARE TO BE OPEN FOR INSPECTION!

Thanks!

Your

Philmont Post Office
